Noventiq's Streamlined 3-Step Rapid Migration Approach

Unlock Efficiency and Speed Your Time to Market with a Trusted Framework

Assess

We quickly assess your current infrastructure via workshops, to identify potential challenges, application dependencies and migration path for identified workloads. We help you understand your TCO and cloud architecture.

Mobilise

We create the foundation for your base infrastructure by setting up the foundational services, including but not limited to IAM, VPC, Subnets, RT, VPN, MGN, etc. to prepare you for the migration to cloud.

Migrate

We ensure a smooth transition to AWS Cloud to set the stage for future modernisation of your apps and technology.

Are you bogged down by legacy IT?
Are you looking for a predictable and personalized move to AWS?

With RMO, get up and running on AWS with fixed-cost, end-to-end rehosting and re-platforming* migration.

- Private cloud (VMware/Nutanix/HyperV)
- Public cloud (GCP, Azure)
- Physical servers

Don't feel stuck when it comes to migrating to the cloud

RMO is a fixed-price Rehost and Replatform* migration service to get you to the AWS Cloud from any other service – smoothly and predictably.

1. How much will my migration cost?

No surprises! This service offers a fixed price per server migration, giving you total price transparency for easy budgeting.

2. I'm confused, should I migrate or modernise?

RMO is your 'clear way out' for migrations. Whether you're moving your complete estate or a small portion of your IT environment, you are covered.

3. How can I migrate - I don't have the in-house skills or resources?

We've got your back! This service is a completely structured migration with expert partners leading the way. You don't need to worry about skills or resources.

RMO service is available for a discounted price of **USD 625** per server.

AWS Benefits may apply.

*This service excludes third-party product integrations. Landing zone setup and modernisation are available as premium, fee-based offerings. The replatforming construct and its efforts are subject to validation, and may cost additional.
